## INSULATION SHEET

# IS21-KES

The IS21-KES is an option to be used exclusively with the KES4021/ KES4022 Electrostatic Discharge Simulator.

The IS21-KES is used to insulate the horizontal coupling plane from the EUT in an electrostatic discharge test that conforms to the IEC61000-4-2 standard.

Read the Operation Manual that comes with the KES4021/ KES4022 Electrostatic Discharge Simulator before using the IS21-KES.

## Specifications

Material: PET

Dimensions: W 1 600 × D 800 × T 0.5 mm

## How to Use

First, remove the protective sheet (only after delivery). Cut the sheet according to the size of the EUT and place it between the EUT and the horizontal coupling plane.

If the EUT generates high levels of heat, the insulation sheet may soften.
