

PARALLEL OPERATION KIT

PK01-PBZ / PK02-PBZ / PK03-PBZ

The parallel operation kit PK01-PBZ, PK02-PBZ and PK03-PBZ are designed to connect two PBZs (one master unit and one slave unit) in parallel. The PK01-PBZ is a kit designed to be used on a bench top. With this kit, the side panels of two PBZs are connected with dedicated brackets, and the OUTPUT terminals are connected together with dedicated connection bars. The PK02-PBZ (for inch racks) and the PK03-PBZ (for millimeter racks) are kits designed to be used on a rack. With this kit, two PBZs are rack mounted, and the OUTPUT terminals are connected together with dedicated connection bars.

When you receive the product, check that all component parts are included and that they are not damaged. If any of the parts are damaged or missing, contact your Kikusui agent or distributor.

Component Parts

Component and quantity

Component	PK01-PBZ	PK02-PBZ / PK03-PBZ
1. Insulation sheet	1	1
2. OUTPUT terminal connection bars	2	2
3. Screws for the load cables (M5-10L)	2	2
4. Parallel operation signal cable	1	1
5. Brackets	2	-
6. Screws for the brackets (M4-8L)	8	-
7. Parallel output terminal cover	1	-
8. Spacers	4	-
